

One bedroom Heron Manor apartment

Introducing Heron Manor, where living with a little support is providing a new kind of freedom. Heron Manor is a unique assisted living facility because here residents enjoy apartments, not rooms. Heron Manor has made it possible to live independently in a comfortable, home-like apartment by giving people access to the support services they need. At Heron Manor, you'll enjoy a home that can change to meet your needs, and a warm community where neighbors genuinely help neighbors.

Our one bedroom apartments average 500 square feet of living space including a full working kitchen, a living room large enough to entertain, and a spacious bedroom with room for a full-sized bed and furnishings. The large bathroom has a roll-in shower and is large enough to allow for staff assistance with bathing, if needed. Each apartment is barrier-free, with traffic areas large enough to accommodate any wheelchair.

A Great Value!

Our residents, like most seniors, live on fixed incomes. Some make more, some make less, and we're proud to say that Heron Manor was built to be affordable now, so our residents enjoy one of the best values in Grand Rapids.
